

# FEEDTEK BUFFER PAK

FOR BUFFERING OF RUMINANT FEEDS

## KEY FEATURES AND BENEFITS

- Contains an optimal combination of world class buffers in one handy ready mixed pack
  - Purchase of individual buffers not required
- Contains Acid Buf (calcified seaweed)
  - Absorbs 2 -3 fold more acid than sodium bicarb at normal rumen pH
  - Buffers up to 4 times longer than sodium bicarbonate
  - Contains high levels of biological available calcium and magnesium
    - Does not take up any additional space within the feed
- Contains significant levels of a full spectrum of trace minerals
  - Act as activators for rumen microbes
- Excellent buffering capacity
  - Maintains normal rumen microbial activity and fibre digestion
  - Improves total feed intake and regulates tempo of feed intake
  - Enables more effective rumen fermentation which channels more nutrients towards production (milk and meat)

## RECOMMENDED INCLUSION RATES

TYPE OF FEED	INCLUSION RATE
Dairy meals	6 kg per 750 kg meal
Total mixed dairy rations	6 kg per 1500 kg feed
Cattle finisher meal (cafeteria system - roughage fed separately)	6 kg per 750 kg meal
Complete cattle finisher	6 kg per 1000 kg feed
Sheep finisher meal (cafeteria system - roughage fed separately)	6 kg per 750 kg meal
Complete sheep finisher	6 kg per 1000 kg feed

Registration Number (Act 36 / 1947): V27811 Bag Weight: 6 kg
