

GREEN GRAZER 126 ORGANIC

MINERAL TRACE MINERAL CONCENTRATE FOR HOME MIXING OF GREEN SEASON LICKS

KEY ADVANTAGES

- Multipurpose - mix mineral supplements for maintenance, production and finishing for both cattle and small stock
- High level of magnesium - improves growth and fertility
- High level of sulphur - prevents prussic acid poisoning and bloat on lush green pastures
- Contains Zinc, Manganese and Selenium in organic form. Organic trace minerals are 100% available to the animal and utilization is not influenced by levels of other minerals - leads to improved resistance against disease and fertility
- Contains no medicaments - suitable for horses, game and organic certified farming

EXAMPLES OF SUPPLEMENTS

INGREDIENT	MINERAL SUPPLEMENT	PRODUCTION SUPPLEMENT	ENERGY SUPPLEMENT	VELD FINISHER LICK
Grain meal / Hominy chop		600	800	910
Salt	500	200	100	50
Green Grazer 126 Organic	500	200	100	40
Total (kg)	1000	1000	1000	1000
Composition (%)				
Calcium	10,1	4,1	2,0	0,84
Phosphorus	6,0	2,6	1,4	0,74
Magnesium	2,8	1,2	0,7	0,34
Sulphur	2,6	1,1	0,6	0,31
TDN (Energy)		48,6	64,8	74,50
Intake - cattle (g/day)	100 - 200	250 - 500	500 - 1000	1000 - 2000
Intake - small stock (g/day)	20 - 40	50 - 100	100 - 200	300 - 500

FEEDING RECOMMENDATIONS

- Consult a Feedtek nutritionist if alternative ingredients are available
- Replace up to 10% of the grain meal with molasses meal or -syrup or Calori 3000 if preferred
- Replace 100 kg grain meal / hominy chop with any oilcake meal for young, late pregnant and lactating small stock
- After adaptation the best regulated intakes are obtained when licks are supplied unrestricted
- Salt inclusion rates are guidelines - may differ according to pasture type and specific conditions
- Supply licks according to stage of reproduction, quality of available grazing and condition of animals
- Good quality, unrestricted grazing and / or roughage must be available at all times together with these licks
